Providing funds for housing projects.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Provides that a surcharge of ten dollars per instrument shall be charged by the county auditor for each real property document recorded, which will be in addition to any other charge authorized by law.

Authorizes the auditor to retain up to five percent of these funds collected to administer the collection of these funds. Of the remaining funds, forty percent of the revenue generated through this surcharge will be transmitted monthly to the state treasurer who will deposit the funds into the Washington housing trust account.

Directs the office of community development of the department of community, trade, and economic development to develop guidelines for the use of these funds to support building operation and maintenance costs of housing projects or units within housing projects that are affordable to extremely low-income persons with incomes at or below thirty percent of the area median income, and that require a supplement to rent income to cover ongoing operating expenses.

Provides that sixty percent of the revenue generated by this surcharge will be retained by the county and be deposited into a fund that must be used by the county and its cities and towns for housing projects or units within housing projects that are affordable to very low-income persons with incomes at or below fifty percent of the area median income.

Creating the permit assistance center in the department of ecology.

(DIGEST OF PROPOSED 2ND SUBSTITUTE)

Finds that as the number of environmental and land use laws have grown in Washington, so have the number of permits required of business and government. The increasing number of individual permits and permit authorities has generated the potential for conflict, overlap, and duplication between the various state, local, and federal permits. Lack of coordination in the processing of permit applications may cause costly delays and frustration to the applicant.

Finds that citizens should be provided with a reliable and consolidated source of information concerning federal, state, and local environmental and land use laws and procedures that might apply to any given proposal; facilitated interagency forums for discussion of significant issues related to the multiple permitting processes can be very useful for some project proponents; and finally, some applicants may require active coordination of all applicable regulatory and land use permitting procedures.

Declares that the purpose of this act is to provide efficient processes that will assist businesses and citizens in complying with the environmental and land use laws while protecting public health and safety and the environment.

Creates the permit assistance center in the office of the governor.

Transfers the powers, duties, and functions of the permit assistance center at the department of ecology to the center created in this act.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Provides that, beginning July 1, 2003, the capital projects surcharge does not apply to department of services for the blind vendors who operate cafeteria services in facilities owned and managed by the department of general administration; the department shall consider this space to be a common area for purposes of allocating the capital projects surcharge.

HB 2807-S by House Committee on Appropriations
(originally sponsored by Representatives Kenney, Cox, Fromhold and Rockefeller; by request of Governor Locke)

Creating the Washington promise scholarship.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Declares an intent to strengthen the link between postsecondary education and K-12 education by creating the Washington promise scholarship program for academically successful high school graduates from low and middle-income families.

Finds that, increasingly, an individual's economic viability is contingent on postsecondary educational opportunities, yet the state's full financial obligation is eliminated after the twelfth grade. Students who work hard in kindergarten through twelfth grade and successfully complete high school with high academic marks may not have the financial ability to attend college because they cannot obtain financial aid or the financial aid is insufficient.

Declares that the Washington promise scholarship program shall not be funded at the expense of the state need grant program as defined in RCW 28B.10.800 through 28B.10.824. In administering the state need grant and promise scholarship programs, the higher education coordinating board shall first ensure that eligibility for state need grant recipients is at least fifty-five percent of state median family income.

Provides that, beginning July 1, 2002, through December 31, 2003, every electrical, gas, and telecommunications company subject to a fee under RCW 80.24.010 will pay to the commission a surcharge for the purpose of conducting a performance audit of the utilities and transportation commission by the joint legislative audit and review committee under this act and calculated as a percentage of the fee paid by each company under RCW 80.24.010.

(originally sponsored by Representatives Cooper, Roach, Berkey, Cairnes, Linville, Esser, Kirby, Reardon, Casada, Doumit, Ogden, Chase and Pearson)

Improving water quality through sound storm water management.

(DIGEST OF PROPOSED 2ND SUBSTITUTE)

Finds that development of consistent and predictable standards for storm water management across multiple state, federal, and local jurisdictions is imperative for the state to achieve environmental protection in a cost-effective manner.

Finds that storm water management must satisfy state and federal water quality requirements while also providing state and local agencies, development interests, and others with a flexible set of tools and alternatives that can help ensure cost-effective storm water management and detention.

Finds that significant fragmentation in authority exists between local, state, and federal agencies in managing storm water. The legislature believes state agencies and local governments, and where appropriate, federal and tribal governments, should identify streamlining opportunities to address fragmentation between storm water authority exercised by local, state, and federal jurisdictions.

Provides that the independent science panel created in RCW 77.85.040 must review the department of ecology's storm water manual for western Washington, dated August 31, 2001.

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Recognizes the fiscal impact the proposed nuclear waste treatment and immobilization plant at Hanford will have on local government operations from the influx of thousands of workers constructing the plant.

Recognizes that the facility will be located on federal land, which is exempt from property taxation. Therefore, the local governments have limited tax sources to offset these increased costs.

Adjusting the monetary threshold for "substantial development" under the shoreline management act.

Finds that the dollar threshold for what constitutes substantial development under the shoreline management act has not been changed since 1971.

Creating the public interest attorney loan repayment program.

(DIGEST OF PROPOSED 2ND SUBSTITUTE)

Declares an intent to provide affordable access to legal education and meet the legal needs of the state of Washington in public interest areas of the law.

Finds that the high cost of attending law school requires that attorneys command high incomes to repay the financial obligations incurred in obtaining the required training. As a result of the need for high incomes, few attorneys are able to practice in public interest areas of the law, which traditionally pay substantially less than other areas.

Finds that encouraging outstanding law students and attorneys to practice in public interest areas of the law is essential to assuring access to legal services in areas of public interest.

Establishes the public interest attorney loan repayment program for licensed attorneys who practice or agree to practice in public interest areas of the law in the state of Washington. No state funds shall be used by the board in administering the program.
